DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Elder (4242809).

As to claim 1, Elder discloses a scraper (84) arranged in each tier underneath each cage (A1 and B1); an open space between each cage facing each other (read as the space between the cages); a cover plate (18 and 22) to the manure pit (area where the conveyors (86) are located) where the manure is scraped into the pit; and the scrapers are driven in a back and forth manner (col. 4, lines 37-39).

As to claim 3, disclosed is a manure plate under each cage (18; fig. 2) upon which the manure scraper glides.

As to claim 4, disclosed are the upper most cages connected together (52) so as to bridge the open space (fig. 2).

Allowable Subject Matter

Art Unit: 3644

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
